

# MIDI RACK<sup>®</sup>

The high quality storage system for goods of low to medium weights.

# MIDI RACK® LONGSPAN RACKING

The fully adjustable Midi Rack® longspan racking system is designed for storage of light to medium loads. It lends itself to use in almost any situation: shelving racking, long span racking, multitier and high rise constructions. The system offers the benefits of quick assembly, good stability and low cost. Midi Rack® is dedicated for the storage of hand loaded heavy products, such as machinery equipment and tools. The system is also suitable for the construction of multitier constructions.

- 1/ The frame
- 2/ The framebracing
- 3/ The beam
- 4/ The decking

Standard finish: galvanised or painted

## THE FRAMES

The upright is perforated at a pitch of 50 mm allowing boltless mounting of the beams. The tapered shape of the hook guarantees a stable and rigid design.

The pyramidal side-perforations allow mounting of Stowshelf® shelves using the same shelving clips. This light duty system can be combined with the Midi Rack® system as the perforations are on the same level and pitch.

Heights [mm]	1500	2000	2250	2500
Depths [mm]	300	400	500	600

\*Other heights and depths available on demand.

### [ CLEAR BENEFITS FOR EVERY APPLICATION ]

- > Complies with the European FEM and EN regulations; quality assured to ISO 9001.
- > Computer aided design ensuring the best solution for every application, including static calculation
- > All components have been thoroughly tested in specialized laboratories.
- > Fully automated production to a high quality standard and in a cost-effective way

## LONGSPAN RACKING

The construction of Stow's longspan racking system is similar to pallet racking. It comprises frames, beams, a full range of accessories and wooden or metal shelves. The main benefits of this shelving and racking system are: the quick assembly, the good stability and the low cost.

### THE BEAMS

Several types of beams are available, to suit all possible configurations.

Lengths [mm]	1500	1800	2000	2250	2500
